

OPSEC for Public Safety Agencies Counterterrorism Training Program (OPSACTP)

Overview: OPSEC for Public Safety Agencies Counterterrorism Training Program is an intense 3-day program. Students who successfully complete the training will be able to apply OPSEC to emergency and special event planning, special operations such as SWAT, HazMat, WMD, Bomb Squad, intelligence, counterterrorism, arson, narcotics task forces and criminal investigations. Course instructors have public safety, security and intelligence backgrounds. This course is designed specifically for U.S. Agencies Federal, DOD, State and Local with a law enforcement, emergency management, fire and rescue and infrastructure protection mission.

Courses in the OPSACTP include:

- Introduction to OPSEC for Public Safety Agencies
- Public Safety Agency Vulnerabilities
- OPSEC Laboratory
- Overview of Perception Management
- OPSEC Intelligence / Threat Briefing
- Threat Analysis and Threat Assessments
- Terrorist Operational Planning Cycle
- OPSEC Case Studies
- Computer Security for Public Safety Agencies
- Public Safety Communications Vulnerabilities
- OPSEC Table Top Practical Exercise (P.E.)
